

Annual Content Membership

What's Included?

Get unlimited access to our full library of eLearning - plus all new content released throughout the year.

50+ HOURS
of CPD and growing...

That's **50+ hours of high-quality CPD content** available right now, with more added regularly

Our interactive eLearning plans cover a range of diagnostic imaging topics:

- ✓ **POCUS** - Learn the important features and functions of modern ultrasound equipment and how to get started with point-of-care examinations
 - ✓ **Abdominal Ultrasound** - From the fundamentals and performing a methodical examination to the trickier and harder to see organs such as adrenals and pancreas
 - ✓ **Echocardiography** - Build a strong foundation for your cardiac investigations by building confidence in the standard right sided views and the measurements used in myxomatous mitral valve disease
 - ✓ **CT** - Get started with practical computed tomography. From the system types and common workflows to the use of contrast and image processing
- 

Invest in your skills. Elevate your capabilities.

Enhance Your Learning with **Expert Webinars**

We've hand-picked a comprehensive series of IMV imaging webinars to deepen your understanding and build practical skills:

Abdominal Ultrasound Pathology Series

- ✓ **Part 1:** Liver, Spleen & Gall Bladder
- ✓ **Part 2:** Urogenital Tract
- ✓ **Part 3:** Gastrointestinal Tract
- ✓ **Part 4:** Advanced GI Tract & Pancreas
- ✓ **Part 5:** Adrenals, Lymph Nodes & Vessels

Radiology & Radiography Series

- ✓ Small Animal Abdominal Radiography: *Parts 1 and 2*
- ✓ Thoracic Radiology & Lung Patterns
- ✓ Radiological Reporting
- ✓ Skeletal Radiology
